WORK EXPERIENCE

Full Stack Development
QUIQUE FRÍO - CLIENT MANAGEMENT APPLICATION　　　05/2024 - 07/2024

- Built a PWA application using React, TypeScript, and TailwindCSS to manage clients and their data in an indexed (local) database, with corresponding manual data recovery and restoration systems. Hosting costs were reduced by 100%, response time improved by 60%, and dependency on network and internet services was completely eliminated.
